

Trailing Edge Dimmer

Single dimmer module designed to fit in a standard 22mm box.

Units can be mounted as multiple items as 2, 3 and 4-gang units

Push/push operation 200VA rating

Using trailing edge technology this module has many advantages over conventional (leading edge) dimmers:

Lower power losses in the dimmer

Virtually no electromagnetic interference

Quiet in operation

Soft start

Overcurrent and short circuit shut down

Works with all types of load down to 5VA

Technical Details

Mains Voltage 220-240V AC 50Hz

Colour: dark grey

Comply with EN 60669-2-1:2000 Safety and EN55015:1996 EMC standards

Locknut packed separately

Part Number:

6TEP200 Push 5-200VA
